## Message from the Office

It's hard to believe we have been back to school for a month already! Students have been working hard to follow new protocols, routines and practicing social distancing. Way to go! Thank you for your help families in following new routines and protocols. We know the daily parent screening is key to helping us all stay healthy- thank you for your support. We are also encouraging families to use the Ministry of Education Covid Self Assessment- this online tool helps with the daily screening and gives suggestions for next steps and recommendations.

This will be the last month we will use the REMIND app to communicate regularly with all of you. We will be switching to the School Messenger app at the end of the month. You will still receive texts just with a new platform. We will send instructions home closer to the time to help with the change over. Please follow us on Twitter @SchoolPlymouth.

This month's newsletter focuses on how to access some of the important resources that have been shared with you since the end of August. There are links (underlined in blue- just click on it) that will bring you directly to the resource. We also included some phone numbers that may be helpful.

If you have any questions or concerns regarding your child, please do not hesitate to call the school (905 732 4110). We are excited about this school year and are eager to be working with our Plymouth School families. Our dedicated and energetic staff also looks forward to ACHIEVING SUCCESS TOGETHER!
